

CREATIVE INSPIRATIONS 2025

# DECORATIVE PAPERS A4

Decorative 10-120 g/m<sup>2</sup> paper, matt with small embossing or metallized, recommended for laser and inkjet printers. Business correspondence, inserts for invitations and greeting cards, acknowledgment letters or thank-you notes made on decorative papers will stand out among the others.

 50 sheets A4 / pack

The sign inkjet / laser suggests the type of printing.  
 We recommend to run test prints on your printer.

*Small embossing or metallized surface of paper makes the certificates, invitations or thank you letters look elegant and will stand out the commercial offers and correspondence*

# DECORATIVE CARD PAPERS

## KRAFT A4

Kraft papers will give a unique look to the prepared invitations, business cards, certificates. They may be easily shaped, so they are perfect to make boxes or as a base for scrapbooking works. Ideal for creative works that require the use of ink or cutting / pressing devices. Double-sided Kraft papers are made of 100% recycled materials.

20 sheets A4 / pack

The sign inkjet / laser suggests the type of printing. We recommend to run test prints on your printer.

# FOLDABLE CERTIFICATES

The foldable certificates stand out with their attractively cut out shape and graphic design. Thanks to the printed content, after choosing one of the two available in each pattern version, all you need to do is to write down the school and the personal data of the child who starts or ends learning in school or kindergarten. The format of the certificate after folding is approximate to A4 and measures 205 x 290 mm.

# TOOLS TO CUT PAPER

## Self-healing cutting mats

Bilateral, three-layer mats with a self-regenerating surface made from recycled materials that ensure the safety of desks or tables during works involving cutting of paper, drawing, writing.

Self-healing double-sided 3 mm cutting mat, 45 x 30 cm  
**291003**

Self-healing cutting mat, 30 x 22 cm  
**291004**

Self-healing double-sided 3 mm cutting mat, 60 x 45 cm  
**291002**

Applies to the middle layer of the mat.

*The choice between two kinds of mats with self-regenerating surface depends on the time you are going to spend working on it and how often you are going to use it. The mat should be stored flat.*

## Highly self-healing cutting mats

Three layer bilateral mats. Made from a special material, which assures their longer usage, especially while working with sharp tools.

Highly self-healing double-sided 3 mm cutting mat, 45 x 30 cm  
**291103**

Highly self-healing double-sided 3 mm cutting mat, 60 x 45 cm  
**291102**

Highly self-healing double-sided 3 mm cutting mat, 90 x 60 cm  
**291101**

## Easy A4 Trimmer

Trimmer perfect for cutting small amounts of sheets. It cuts up to 5 (70-80 g/m<sup>2</sup>) sheets of paper or single cardstock sheet 200 g/m<sup>2</sup>. Interchangeable blade closed in special casing and sliding out of the casing while cutting the sheet ensures safety and comfort of work.

- light and convenient to use
- anti-sliding foamed pads
- interchangeable blade in a safe, plastic casing
- a runner helps to cut the paper straight
- cutting guides in cm and inches
- additional side guide expands the working field up to 37 cm
- dimensions: 415 x 130 cm

*Cutting smaller amounts of sheets with smaller grammage at once will extend longer usage.*

Easy A4 Trimmer  
**290002**

Interchangeable blade for Easy A4 trimmer  
**290003**

# SCORING ACCESSORIES

Scoring 30x30 cm and 45x30 cm boards with a set of accessories are essential for people who love creative works. A scoring board 30x22 cm and a bone folder is recommended for people who start their adventure with creative paper work

## Cutting and scoring boards

Professional tool for making cards, envelopes, gift boxes etc. One side, a so called self-regenerating mat, is used for cutting and the other side with grooves is used for scoring. Those special grooves and the special bone folder help to make a cavity in the paper, thus ensuring an equal and aesthetic fold along the line.

Before you start creating your work, always check if the decorative card paper is suitable for scoring. Due to the different production technologies some of the decorative card papers are better suited for printing, cutting or stamping. After scoring, check if the card paper can be easily folded, with no lateral bents along the line. If, despite the scoring, the fold is unaesthetic, the cavity should be deepened or two parallel scorings made one next to the other.

## Bone folder

The bone folder permits to make a cavity in the paper, thus ensuring an equal and aesthetic fold along the line. The cavity may be made on a flat surface along the ruler, although it is recommended to use a scoring board.

Bone folder  
 290000

Making a scoring line along the line on one of the board's sides ensures nice fold of the paper.

Cutting any type of paper will be easier thanks to the scoring board with self-regenerating surface and with cutting guides.

Double-sided Scoring board
